

VINAYAK HEGDE (SOFTWARE DEVELOPER, FRONTEND DEVELOPER)

Stockport SK4 1ST, Mobile: 07508207800, Email: vinayak.nandi@gmail.com
LinkedIn: <https://www.linkedin.com/in/vinayaknandi/>

PROFESSIONAL PROFILE

Innovative Front End Developer offering 9 years of experience in the full software development life cycle - from concept through delivery of next-generation applications and customisable solutions.

Expert in advanced development methodologies, tools and processes contributing to the design and rollout of cutting-edge web applications.

Known for excellent troubleshooting skills - able to analyse code and engineer well-researched, cost-effective and responsive solutions.

CORE COMPETENCIES AND TOOLS

Core JavaScript, NodeJS (basics), jQuery, ReactJS (basics), BackboneJS, UnderscoreJS, RequireJS, KendoUI, CSS3 and CSS pre-processors like SASS and LESS, HTML5 and templating engines like Underscore templates, Jade, Kendo templates, UI/UX design and wireframing, C#.Net (WCF Web Service, RESTful services,, WPF, WinForms, Silverlight, WebForms), SQL Server, Ajax, JSON, XML, IIS, Visual Studio, Sublime Text, Agile Development Methodology, Source Version Control (SVN-Git and TFS)

PROFESSIONAL EXPERIENCE

Senior Front End Developer @ Playtech Plc (Jul 18/Present)

I involved in many client faced apps development for gambling industries. AngularJS, Angular, ReactJS, TypeScript are few to name the technologies used to develop the apps.

Achievement highlights:

1. Contributed frontend expertise in the development of products through the software life cycle, from requirements definition through successful deployment.
2. Excelled in agile software development and management of technological issues, earning the highest customer satisfaction rating for all software solutions delivered.
3. Introduced methodologies and best practices that enhanced product definition, release processes and customization of applications to user needs.

Other responsibilities: Building front end code base and libraries, testing, monitoring junior developers, post-sale support and maintenance.

Software Developer @ Intuitive Business Intelligence Ltd (Nov 13/Jun 18 – 4yrs 8months)

I worked on a project called "Intuitive Dashboards" - which is a data visualisation tool and I developed frontend (Single Page web Application) using cutting-edge technologies like JavaScript (VanillaJS, Kendo UI, BackboneJS, UnderscoreJS, RequireJS, jQuery, ReactJS), HTML5 and CSS3.

Achievement highlights:

1. Facilitated customization of Intuitive Dashboards by encouraging other developers to adopt emerging standards for web app development, architecture and tools.
2. Participated in partners' conference due to ability to translate user needs into easy-to-understand software solutions. Helped sales/professional delivery team close major deals generating more than £100K in revenue over years.

Other responsibilities: Decoupling front-end from back end, prototyping, UI/UX design and development, testing, database management, client management, post-sale support and maintenance.

Software Developer @ ERS Connect, Glasgow (Sept 12/Oct 13 – 1yr 2months)

I assisted in design and development of Patient Appointment Confirmation Service and Telephone Answering Service application for NHS Trusts.

Achievement highlights:

1. Provided user requirements analysis, design and programming support for enhancement of web application accessed by roughly 25k NHS users every day.
2. Fuelled additional revenue stream through responsive customer support, generating £20K in new license sales within first few weeks of new product release.

Other responsibilities: Brand development, web site functionality and UI enhancement using JavaScript/HTML/CSS, application development using C# and deployment and support.

Software Engineer @ Cormorant Engineering Pvt Ltd (Jul 09/Aug 10 - 1yr 2months)

I worked on the project Customer Loyalty Solution. The former software application was targeted to small retailers. I was responsible for requirement analysis, impact analysis, application development using C# and testing, install and configuration, post-sale support and maintenance.

UI Design Intern @ IBS Software, India (Jan 09/Jun 09 - 6 Months)

I worked on UI Design for developing Rich Internet Applications (m-RIA) framework and mobile applications. I was responsible for prototyping, pictographs, research on User Interface Design Process and Usability Standards.

Junior Networks Admin at TSS Ltd, India (Sept 04/May 05 9 Months)

I worked along with Network and Systems maintenance team to provide the best service, supported about 75 networked systems, phone systems in the organisation.

EDUCATION AND QUALIFICATION

POST-GRADUATION: MSc. APPLIED INFORMATICS Edinburgh Napier University, UK

UNDER-GRADUATION: ENGINEERING IN INFORMATION SCIENCE India
